As I think you know, I am trying to write a book. You have already cleared (with a few changes) one chapter [   ] that I am using as a sample. Attached are chapter summaries for other chapters ([   ] is still be worked on). There will be a few more, but I wanted to get these to you so that you could begin working them. I have not shared anything with an agent as of yet. (b)(3) NatSecAct
Thanks for your assistance.
